Centsoft enters partnership with Littlefish

Centsoft and Littlefish are teaming up to offer their customers a smoother solution for supplier invoice management. Littlefish has developed their own integration to connect Centsoft AP Automation with SAP Business One. The partnership between Centsoft and Littlefish will prove to be mutually beneficial for both companies, as well as their customers.

A smooth solution

Together, Littlefish and Centsoft are opening doors to better purchase-to-pay options for their customers. Centsoft offers a cloud-based workflow system to streamline accounts payable operations. Its quick and easy set up model makes it a simple solution for Littlefish's customers in need of an efficient invoice workflow system.

Littlefish has developed a standard integration for connecting SAP Business One seamlessly to Centsoft AP Automation. This will help their customers to further automate their supplier invoice management process; from the invoice arrival and capture, to the booking in SAP Business One.

An optimistic collaboration

"Both Centsoft and Littlefish have modern and efficient software solutions for the SME segment. I'm confident that combining our solutions will further strengthen our ability to offer the right IT support for every company, within ERP, HR and EDI" says Mats Lundberg, CEO.

"Thanks to Littlefish we can offer a seamless integration to SAP Business One which will make the whole workflow of the supplier invoices more efficient. We are confident that this partnership will be a success for both Centsoft and Littlefish and we are looking forward to reaching out and offering an AP automation solution to SAP Business One clients worldwide," states Christoffer Hartung, CEO at Centsoft.

About LittleFish

Littlefish was founded in 2006 and has offices in both Halmstad and Gothenburg, Sweden. Littlefish delivers and installs SAP Business One as partners to SAP. In addition to this they also deliver multiple self-developed AddOns which enables a tailormade ERP solution for their customers. Their business idea is to supply their customers with the right IT system to allow them to focus on their core activities. Find out more at **www.littlefish.se**
